### 2009TDC30a: Introduction

Running Time: 1min

### Intro

Hey everybody! Day 30! Isn't it amazing? You're almost there!

Today, what we want to talk to you about is some of the things you probably need to look at (obviously, we're not going to teach them in the Thirty Day Challenge – I don't know if you've noticed, but we're almost done! Which is awesome – well done!)

We wanted to give you an idea of some of the things you might want to have a look at.

In Internet Marketing, you don't finish learning – you're constantly learning, **we're** constantly learning.

And as the lads here are about to discover, I have a lot to learn about the guitar. But, like you guys, we can always keep trying.

So, keep with it. Just one day to go. One day.

## Summary:

After completing today's lessons you will have a greater understanding of what steps to take following the Thirty Day Challenge. You will understand how to prioritize what areas you need to work on, and what you need to educate yourself about more. You will also understand the leverage you now have using the skills you have learned in the past 30 days.

## Today's Tip:

Understand and participate in your market. Being an active participant and contributing to your market is the way to market leadership. Everyone can become a market leader, what you need to do is work out the medium that you are comfortable with, in order to contribute.
